SUMMARY

As a versatile Full Stack Developer, I possess a robust skill set in HTML, CSS, and JavaScript, complemented by expertise in React.js for dynamic web applications and React Native for mobile development. My proficiency extends to back-end development with Golang, enabling me to build scalable and efficient server-side solutions. With a passion for creating seamless user experiences and a commitment to delivering high-quality code, I thrive in collaborative environments and am adept at tackling complex challenges across the full software development lifecycle.

EXPERIENCE

Front End Developer
Microlan Services

KENYA
05/2022 - 12/2022

Achievements
· Led the redesign of the user interface for Microlan's flagship product, resulting in a 30% increase in user engagement and a 20% reduction in bounce rate.
